HERE IS YOUR REMEDY!

HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, St. Mary's Street, Weymouth, dated May 15th, 1851.

To Professor Holloway,

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING.

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway,

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works, accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated, yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact. (Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr W. P. England, Chemist, 13, Market street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a letter from Mr. Federick Turner, of Penshurst, Kent, dated December 13th, 1850.

To Professor Holloway,

DEAR SIR,—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDERICK TURNER

Volcano Quartz Mining Company,

Volcanoville, El Dorado Co., CALIFORNIA.

BOOKS for subscription to $75,000 of the stock of this company are now open at the office of the Company, 78 BROADWAY, New-York.

The uncommonly rich claims of this company hold out inducements, to those who are disposed to invest capital in quartz mining in California, not surpassed, if, indeed, *equaled*, by those of any other company in that State.

The extraordinary richness of our quartz was witnessed by *thousands* at the late *Fair of the American Institute*, and the extent of our claims, together with the peculiarly favorable location for economical working upon a large scale, will ensure the *most ample* and *satisfactory* returns upon the investment.

It is well understood by practical men that, with machinery working *twenty tons* of quartz, paying *two cents* per lb. large profits will be realized upon each day's work. It is the intention of the company to obtain machinery sufficient to work *fifty tons* per day, and to work it in the most economical manner, by which they feel confident of being able, from their rock which will yield from *two cents to twenty dollars* to the lb. to make returns to their shareholders which will not only satisfy but surprise them.

It will be seen by reading the pamphlet containing the *charter*, the laws of California, and the details of our plans of operation, that our estimates are based upon *two cents* per lb. and the expenses of working the mill are put at the present *high prices* for labor, while it is well known to all who reflect upon the matter, that as the cost of labor shall be reduced, the income will be materially enhanced.

If we work 40 tons per day, and get *two cents* per lb., it will yield $1600, while *three, four or five* cents per lb would give a proportionate increase of receipts, the expenses of working the mill would not be increased a dollar, and will be less than $470 a day.

Subscriptions can be made by mail, enclosing *ten* per cent on the amount of the balance, *twenty* per cent to be paid on the 29th of Nov inst., and *seventy* per cent on the 29th day of December next, when certificates of stock will be issued.

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world. It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child, and alike astonishing and satisfactory in its effects upon man or beast. To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa, and Dysentery, in all of which cases it should be used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Chapped Hands, Bruises, Burns, and all descriptions of wounds, are magical. Persons troubled with Cramp in the Stomach, Side or Bowels, Sore Throat, Piles, &c., by a combined internal and external application of this Anodyne, cannot fail of certain and speedy cure. The proprietor can produce volumes of testimonials in its favor, but prefers to let it carry its own recommendations, as it has done for forty years past. We ask no man to use it after an unsatisfactory trial. In its composition it unites several of the most penetrating and healing specifics known to the materia medica.— The inventor of this article was in the constant and successful practice of medicine for more than twenty years.

This is to certify that having been troubled for a number of years with a distress of cough and bleeding at the lungs, and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption. My legs swelled so that I was unable to stand or help myself. At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and have since been able to labor every day. I have also for the last twenty years been subject to severe attacks of bloody dysentery, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint. I can truly say I think your Anodyne Liniment was the means of saving my life. JOHN T ATKINS.

Brewer, Sept 29, 1852

DR JOHNSON: Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment, and by using three bottles, my leg was limbered and strengthened, and for a number of years I have been able to use it about as well as the other. I consider myself indebted to the use of your Liniment through the blessing of Providence, for the use of my leg, and would say to others who may need help in this way, try it, and no doubt you will be cured.

Mercantile Lectures.

The [illegible] lecture of the winter's course of [illegible] before the Mercantile Association was [deliv]ered on Thursday evening, at the City Hall [by Re]v. J. C. Bodwell, of Farmingham, Mass., [on E]ngland, the first of three lectures on the [same] subject. On Friday evening he delivered [his se]cond lecture on the Women of England, [and] this evening he is to deliver his third [and c]losing lecture on the country and Rural [Peo]ple of England.

[The] people of our city have responded most [libera]lly and generously to the efforts of the Mercantile Association, and given them the amplest [enco]uragement in the purchase of their tickets [and] filling the seats of the City Hall with a [lar]ge, a fashionable and an intelligent audience. [The out]lay of the Association was liberal, and [it has] been met with generosity and highly ap[preci]ating liberality.

[Th]e two lectures already delivered have se[cured] the closest attention, and have given very [great] pleasure to our people. Mr. Bodwell has [lived f]ourteen years in England, and he has [acquire]d exact and extensive information upon [a grea]t variety of topics not noticed in books of [travel or] history, and enabling him to present [clear an]d discriminating views of various subjects [of in]teresting discussion, and this he does in ele[gant] language and in a quiet and effective [manner].

[Go]dey's Lady's Book, January 1853.

[Th]e enterprizing and enthusiastic publisher [of the L]ady's Book, opens the volume of the [new year] very beautifully. He gives as the [embellishm]ents of the season, a double number, with [seve]n full page plates. "The Merry Thought" [is a bea]utiful picture of three females, two of them [engag]ed in breaking the "Wish Bone." "The [Temp]tation," a fine picture of elevating and [mor]al tendency, making poor externally [cloth]ed mortals, more familiar with the thought [of an]gelic beings, a tendency which this Sad[duce]an age greatly needs. "The First Snow" [contain]s a group of nine little folks, with skate [and s]led, and with all their Christmas clothing [on, al]l neat and prim as pins. "Pin Money," [and how] it is spent. "Needle Money," How it is [earned]. This is a colored engraving, in two [parts], and most touching and suggestive it is, [and th]e lesson it teaches should go home to [many] hearts. The artist has done justice to the [subject], and Godey has contributed something [of his s]anity in the selection of the subject. [Th]e Plate of fashions and other matters of [illu]stration are of more than usual interest. [Th]e every-day actualities are brought out by [mode]lling the various processes in the estab[lish]ment of the Messrs. Bairds' Marble Works. [Thi]s number commences the new volume, [and in] it, is commenced the Nouvellette, by [Mrs.] C. Lee Hentz, one of the best American [wri]ters. We think Mr. Godey has a genius for [gettin]g up a monthly publication of elegance, [ente]rtainment and usefulness, and, if half a doz[en or] more of our lady friends wish us to pro[cure] them this work, at the lowest sum, we [woul]d do so with pleasure for their sake.

☞ The steamer Eastern State left Boston [on Sat]urday evening, and soon was enveloped [in a th]ick snow storm, and amidst a gale of [wind]. She came through beautifully until she [reache]d Monhegan, where she kept off the shore [out]ward for sixteen hours, until the weather [clea]red off, when she came in capitally and [reach]ed Hampden on Saturday afternoon, and [lan]ded her freight. She had a large number of [pa]ssengers, many of them ship-masters who [expres]sed themselves in highly favorable and em[phati]c terms of her superior qualities as a sea [boat].

☞ "Sargent's Standard Speaker" one of the [best] books for schools, and compiled with all [the acc]uracy and good taste of its talented au[thor, t]he editor of the Boston Transcript, and [whic]h has been received with the highest favor [in] this country, has also been introduced into [the] schools in England. It is not often that [editors] turn aside from their profession to make [books], but when they do, the work is sure to be well done, and to more than meet the pub[lic] expectation.

Political Gossip From Washington.

We must occasionally treat our readers to a portion of the political gossip at Washington which reaches us from various quarters, as it courses its way from the great political centre of the Union.

We make up for them this morning the following hash:

A gentleman just down from Concord gives out as a positive and most reliable fact, that no New Englander will be invited to a seat in Mr. Pierce's Cabinet. Caleb Cushing is a friend whom the new President would be glad to have with him, but the policy—as at present determined—will mark out for himself, excludes from the Executive chair any representative of New England except himself. The same policy will operate unpleasantly upon the scores of office-seekers from New Hampshire; and it is said that Mr. Pierce intends to show a striking contrast between his own and the present administration, by carefully avoiding a partial distribution of favors in his own town or State, or among his personal friends. If that be the policy, it certainly is a judicious one. The same authority from which I get the above, awards the Attorney Generalship to Charles O'Conner of New York. "Young America" thus bids fair to have one of its bright particular stars in a position peculiarly advantageous in these days of filibusterism. Gov. Lowe, of Maryland, is likely to outmanage Robert M. McLane of the same State, and get a seat in the Cabinet. Mr. McLane's tour in California, and unsuccessful canvass for the United States Senatorship, have somewhat loosened his party ties at home. The Secretary of the Interior will be a North Western man—probably John W Davis of Indiana.

Intimate friends of Gen Cass say that he will not give up his seat in the Senate for the Chair of State, unless (and there generally is a reservation in such cases) it shall seem necessary to make the sacrifice for party interests. Mr. Douglas is confident of a long term yet in the Senate, and looks upon it as the best position from which to seek gratification of his honorable ambition for the Presidency. If he were willing to keep the Cuban question open four years, he might hope that the State Department would give him a better hold on the country in '56.—But his purpose is to bring about the annexation of Cuba at the earliest day and to be known in '56 as the successful champion of that measure.

SPECULATIONS AS TO THE CABINET.

Will Caleb Cushing come into the Cabinet? Will Dix, of New York? Will Marcy? Shall Pierce shake the New York Barnburners all off, or shall he go along with and keep them?—These are questions North. Like questions come from the South. "Democracy" there is about all "Secession" or "Nullification." It will have, it says, nothing to do with the Cobbs of Georgia, the Footes, of Mississippi; nothing to do with Unionism in general there, it says. None of it can come into the Cabinet. We shall see. The Cabinet speculations grow more earnest every day. The California Senator (Gwin) has been on a mission to Gen Pierce; but we have not his report as yet, though he has gone back to Washington.

One of the most common remarks made by every one upon the state of feeling in the democratic ranks in Congress is, that in their transition from an opposition to an administration party, they have suddenly been *non-committal*. They hesitate about men and measures, and are extremely cautious in their opinions on subjects as to which they have heretofore had little reserve. There is not much more to be heard of filibustering and of intervention projects, from inside Democrats. They have to go out of the party to raise a new cry. Some of them have heretofore said so much about "inevitable war, and so much about "intervention against intervention," that they now find their speeches a barrier between them and the high places under the new administration.

Correspondence.

To the Editor of the Whig and Courier.

New York, Dec. 11.

The European news by telegraph from Halifax creates more talk than usual. The large vote in the English House of Lords in favor of free trade may be regarded as favorable to the commerce of this port, but we are by no means certain that the British ministry is right in inferring that General Pierce's overwhelming majorities are no indication that Protection to American Industry is to be abandoned.

The decease of Daniel Webster would seem to have inspired Lord Malmsbury with the hope of securing the advantages claimed by the British American colonies in regard to the fisheries. And now that his offended dignity has been satisfied by the death of the old lion, about whose ears he once buzzed like a horse-fly, the Austria Chevalier, Hulsemann, offers to return to his post of observation and diplomacy in Washington.

The losses by fire in California will undoubtedly be severely felt in this quarter. The fluctuations in the San Francisco market, too, are keenly felt here. Think of flour at $45 per bbl! Australia has created some little diversion of the general interest. Not much, however. Adams & Co., have sent out their Cincinnati partner to establish an Express Office there, to connect with Europe via New York.

The emmigration hence to California continues, undiminished. This week no less than thirteen hundred passengers left for Aspinwall, by the Law and Aspinwall line's steamer "Georgia" [illegible]

[illegible]

either there or shortly after leaving there, are owing entirely to the fact that there are not steamships enough plying between Panama and San Francisco. If the old P. M. S. Company must have a monopoly of this passenger business, they surely ought not to refuse to put on steamers enough to supply the demand, simply because *at certain seasons* their steamers would not be so full of passengers as to be profitable! I am not at all certain, that in the course pursued by them, in this respect, they are not answerable for a large portion of the suffering and mortality occurring from the detention of so many poor fellows at Panama. True there are now, in their despite, two or three noble steamers on the Pacific, owned by Davis, Brooks & Co., and Howard & Son have just sent the Sierra Nevada round the Horn. But still more are wanted. The more the merrier. A fair competiton is for the public good; as your friends will see, who test the fares by the early January steamers.

We have had a vast deal of rain, but no snow as yet. Last night it came down with a perfect looseness.

Inspectors, clerks, &c., employed in the Custom House are looking out for other employment.

It is said that some of the abutters on Broadway have an action against the City for giving a Railroad Company any private right in that thoroughfare.

The clergy, unlike those in most other professions, enter into the heaviest part of their work at first. They accept a call, and at once have all their sermons to write, their lectures to prepare, their visits to make, just like their elder brethren, but without their abundance of "preparation" to assist them when cramped.—Few other professions are so. Mechanics, having served their time, take small jobs at first and extend them afterward, as they acquire confidence and capital. Lawyers and doctors are thankful if the very smallest silver thread of business runs through their first years of practice. President-makers and cabinet-makers and the discoverers of planets try their hands and instruments on much small game and worthless material, before venturing upon that which is costly. So the clergyman finds his task grow lighter each year. While he remains with his first people, it grows easier, because habit comes to his assistance, and when he removes to the charge of another flock, there are all the old notes ready for an emergency, and when "adapted" a little, as fit as ever for the edification of the people.

Hence the temptations of clergymen are to overwork in their youth and grow indolent when older. The members of other professions generally beginning with the smallest possible amount of business that conscientious men can call urgent, find a special temptation to turn off to side issues, and by-engagements. Their leisure comes when they don't know how or have not the means of appreciating it, and disappears at the season that they come into condition to enjoy it. It is no wonder that so many clergymen break down early, are obliged to go abroad or into some new employment to recover health. And it is not strange that the Esq. or M. D. appended to a young man's name does not furnish any kind of index to his employment.

Retribution. The Pittsburgh, Va., Intelligencer, noticing the accession of Louis Napoleon to the throne of the French empire, takes occasion to observe that the great Emperor himself, who divorced Josephine because she bore him no children, would have some strange feelings could be rise from the dead and see his throne filled by the grand-son of the divorced wife, whilst his own son by his second marriage sleeps far from France, in the tomb of the Hapsburgs. This reflection is indeed singular, and it proves that "there is a divinity which shapes our ends rough hew them as we may."

The holidays are coming. The little folks are preparing their stockings for Christmas eve—and the free hearted, the warm and generous; those who delight more in giving than in receiving—are beginning to think what token will please best. Where will they learn so quick as in the newspaper? Depend upon it, the *live* newspaper is the place where the public look for news and for information of the best places at which to buy goods.

Stereotyping. A New York letter in the Philadelphia Inquirer says:

"I have just been inspecting a number of stereotype plates cast in gutta percha. The moulds is of the same material, and the letters all come up with a fair face. The impressions from these plates are perfect, and if it works as it present promises to do, there must be a complete revolution wrought in the business of stereotyping."

The President of the Northamptonshire (England) Farming and Grazing Society, on presenting a prime cup to a young man thus addressed him: "Now, young man, take this cup and remember always to plough *deep* and drink *shallow*."

CONGRESS.

Washington, Dec. 16.

IN THE SENATE.

Mr Atchison, pursuant to a written request of Mr King, took the chair.

Mr Seward presented the petitions of citizens of Rochester, New York, praying for remedies against foreign piracy on American patents.

Mr Butler presented the memorial of the Chamber of Commerce at Charleston, praying for an appropriation for the removal of the bar in that harbor.

Mr Shields introduced a joint resolution, directing the President to cause to be prepared a suitable sword, to be presented to the representatives of Mr Samuel Ringgold, who fell at Palo Alto. Referred.

Mr Chase introduced a bill ceding to Ohio the public lands in that State remaining unsold [illegible]

Mr Gwin gave notice that he would on Monday call up the bill [illegible]

[illegible]

The Kentucky election case was then taken up and debated by Messrs. Hale, Toucey, Brook and Miller.

Mr Douglas then got the floor, when the Senate adjourned till Monday.

IN THE HOUSE.

Mr Brown of Mississippi, asked but did not obtain, leave to open an amendment to the rules providing for the appointment of a Committee of fifteen members, whose duty it should be to report a general bill at each session of Congress making appropriations for the payment of private claimants.

On Motion of Mr. Smart, the Committee on Commerce was instructed to inquire into the expediency of making an appropriation for the Custom House in the Belfast Collection District, Maine.

Mr Haven, from the Committee on Printing, reported a bill authorizing the employment of two clerks and one messenger in the office of the Superintendent of Public Printing. The further consideration of the subject was postponed for a week.

The House then went into Committee to refer the various branches of the President's message to the appropriate committees.

The committee proceeded to vote on the pending proposition by Mr Brooks to except from reference to the Committee of Ways and means, so much of the President's Message as relates to the tariff and customs, and that it be referred to the Select Committee of seven members, &c.

Mr Jones moved an amendment, to the effect that the ad valorem principle should be recognized in any bill that might be reported by the committee, and reducing the existing duties on imports, with the view to the collection of no more revenue than shall be necessary to meet the legitimate expenses of the government.

Mr Brooks asked for a division on the question on this amendment, but was overruled by the Chair. The amendment was agreed—yeas 81, nays 80.

Mr Hillyer of Georgia, offered an amendment, to the effect that an adjustment of the tariff on the principle of protection ought to be abandoned, and that taxes should be levied for the sole purpose of raising the revenue necessary, and that the committee be instructed to consider the subject referred to them with a modification of the existing tariff on the principle herein expressed.

Mr Houston of Alabama, was opposed to the amendment, and to the whole proceeding, but it was adopted—yeas 85, nays 41.

Mr Thomas M. Howe, of Pennsylvania, offered an amendment, instructing the committee to report a bill proposing specific duties whenever practicable, with the view to prevent frauds upon the revenue.

Mr Stanley of North Carolina, opposed the amendment—though he said he was a thorough protective man—yet he did so for the sake of protection, without the humbugging of incidental matters. He said that the Whigs, as a general thing, were in favor of protection, and were opposed to the whole movement upon the question now before the House, it being designed to make Buncombe at home.

Mr Howe's amendment was rejected.

Mr Carter of Ohio, offered an amendment with the view to ultimate free trade and direct taxation. He thought that the whole subject had better be looked square in the face, and he earnestly desired the abolition of all custom houses, and the saving of the three millions annually squandered on worthless persons to corrupt the purity of the franchise.

He (Mr Carter) believed that direct taxation was more just to every section of the Union than the present mode of collecting revenue.

Mr Brooks said he made his motion to deplete the treasury, and stop the accumulation of the surplus revenue, and to this end desired to enlarge the free list, especially on raw materials.

Mr Carter's amendment was finally adopted.

Mr Lockhart offered a substitute for the proposition of Mr Brooks, as amended, instructing the committee of seven to report a bill on or before the 4th Monday in January, to graduate and reduce the tariff to the revenue standard.

Mr Brooks opposed this amendment, and proposed another, instructing the committee to bring in a bill enlarging the list of free articles and reducing the duty on such articles of foreign growth or production as do not come in competition with the agriculture or manufacture of our country.

Mr Sweetzer of Ohio, replied to Mr. Brooks, and accused the present administration of extravagance.

Mr. Brooks replied in defence of the administration, after which both substitute and amendment were rejected.

The question then recurred on the adoption of Mr Brooks's original amendment, as it had been amended on the motions of Messrs Jones, Hillyer and Carter. Yeas 15, nays 61. Not being a quorum, the question was again taken, when 24 voted yea—nays were not counted. So the proposition to refer the subject of the tariff to a select committee was rejected.

Mr Clingman of North Carolina, offered an amendment, to abolish the duty on railroad iron, as a means of getting rid of the subject of the surplus revenue.

Mr Chandler of Pennsylvania, opposed the amendment, and pending the consideration of the subject, the committee rose and the House adjourned.

Cramp and Pain Killer.

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, billious cholic, burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents—you may be *positively sure of relief* if you use it.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations, and will deceive and *injure the patient*.—Price 12½, 25, 37½ cts per bottle, according to size. Sold by Agents in nearly every town in the State.

EVERY FAMILY should at once procure a bottle of the great Arabian remedy for man and beast, called H. G. FARRELL'S ARABIAN LINIMENT. It allays the most intense pains in a few minutes, restores the synovial fluid or joint water, and thus cures stiff joints, it penetrates the flesh to the bone, relaxes contracted cords, cures rheumatism and palsied limbs of twenty years standing, also tumors, swelled neck, enlargement of the glands, and is the best medicine for ailments of cattle ever discovered, curing sweeny, spavin, splint, and all diseases which require an external application.

Sun Pain of 10 years' standing cured by H. G. Farrell's Arabian Liniment.

Mr. H. G. Farrell—Dear Sir: I had been afflicted with the "Sun Pain" for the last ten years, and could never get relief except by bleeding, but by the use of H. G. Farrell's Arabian Liniment, applied over the temples about three or four times a day, it was entirely removed, and I have felt nothing of it since. I went into the stable one night, to apply it to a horse's sore leg, and being very lame he stumbled and fell against my legs, crushing and bruising them so badly that they turned black as my hat, rendering them powerless. I applied your Liniment, and was well enough in a few days to go about again as usual. I also crushed my finger in a shocking manner, by letting a back log fall upon it, your Liniment soon healed it up, though.

JOHN B. M'GEE.

La Salle precinct, Peoria co, Ill., Feb. 6, 1849.

[*Esq. Barker, of New Canton, Ill., says.*]

Mr H. G. Farrell's Arabian Liniment has cured some bad cases here, which every other remedy had failed in, one was a white swelling and contracted cords in the leg of a boy twelve years old. The leg had withered away, and was so contracted that he had no use of it. Three doctors had tried their skill upon it in vain, and *he was fast sinking to the grave*, when the boy's father was induced to try H. G. Farrell's Arabian Liniment. Before the first bottle was used up he came to Mr. B's store, and the first words he said were, "Mr Barker, I want all that Liniment you have in the store, the one bottle I got did my boy more good than all that had ever been done before." That boy is now well and hearty, and has free use of his legs. It is good for sprains, bruises, cuts, burns, and swellings.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Hassell, Oldtown, French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

Crystal Palace----Circular to

AMERICAN PRODUCERS.—Association for the Exhibition of all Nations. Office, No. 53 Broadway. New York, Oct. 11, 1852.

I address you in behalf of the Association for the Exhibition of the Industry of all Nations, to invite your co-operation in the general objects of the enterprize.

The building intended for the purposes of the Exhibition, constructed entirely of iron and glass, will be, it is believed, the largest and most beautiful edifice in the country. It covers, on the ground floor, two and a half acres, and, with the galleries, the whole space is four acres. The mason work is far advanced, and will be completed on the 21st October. The main part of the iron work is contracted for, and the castings are to be delivered from the 15th October to the 15th of December. We have it in our power, therefore, to assure you, as we have already stated to the public, that the Exhibition will certainly be opened on the 2d of May, 1853.

You are thus offered an unequalled opportunity of exhibiting to the vast population of this country such of your productions as you send us, free of all charge, of every kind whatever, from the time that they are delivered into our custody until withdrawn.

The Association has already announced that their objects are limited exclusively to exhibition. They have no interest whatever, direct or indirect, in the final disposition to be made of any article that may be displayed.

You are, no doubt, aware that we have received all the assistance from the public authorities that we have desired. The City has given us the lease of Reservoir square; the State has granted us a charter, and the Federal authorities have engaged that the building shall be made a Bonded Warehouse for the purpose of receiving foreign articles without paying duty so long as they remain in it.

We have the strongest assurances of support from the representatives in this country, of the principal Foreign Powers, and we are receiving daily confirmation of the general interest that the subject is exciting among the manufacturers of Europe. A large number of articles of high value are already secured, and we have no doubt whatever that we shall have a very extensive representation of all the branches of foreign industry.

The measures which we have adopted will, thus, secure two great objects we have desired to attain, viz: the erection of a building which will be a great architectural ornament to our City, and the exhibition, in that building, of the products of the industry of the Old World; still, we shall fall far short of our mark if we do not equally succeed in obtaining the fullest and most extensive co-operation of American industry. Our Exhibition would be extremely defective—it would be very inferior, both as interesting [illegible]

This will certify that I was affected for over thirty years with a Scrofulous humor in my leg, and I applied to four or five physicians and got no relief until I fell in with JOSEPH SAUKABASIN, and he gave me one bottle of medicine, and cured me so it has healed perfectly sound. AGENCY FOR BUSINESS WITH U S. PATENT OFFICE, *WASHINGTON*,

No. 22 State Street, Boston

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office *where by a Patent may be procured about six weeks earlier* he continues to forward them free of expense—to prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them *matters in general of paramount importance in order to obtain correct specifications and claims*. The experience of sixteen years practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which otherwise it might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 31, 1849.—During the time I occupied the Office of Commissioner of Patents, R H EDDY, Esq, of Boston did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community have failed and been discarded this has gained friends by every trial conferred benefits on the afflicted they can never forget and produced cures too numerous and too remarkable to be forgotten

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only a general thing but almost invariably cure the maladies for which it is employed

As time makes these facts wider and better known this medicine has gradually become the best reliance of the afflicted from the log cabin of the American peasant to the palaces of European Kings. Throughout this entire country in every State city and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant, for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection *Cherry Pectoral* is introduced and in constant use in the Armies, Hospitals Alms Houses Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it under his own eye with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration

We have endeavoured here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe speedy and effectual which this has by repeated and countless trials proved itself to be, and trust by great care in preparing it with chemical accuracy of uniform strength to afford Physicians a new agent on which they can rely for the best results and the afflicted with a remedy that will do for them all that medicine can do

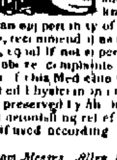
THE GREAT REMEDY FOR

Coughs, Colds and Consumptions,



THE VEGETABLE PULMONARY BALSAM FOR CONSUMPTION

The *VEGETABLE PULMONARY BALSAM* is probably without a parallel in having during a period of more than *Twenty-five years* fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS THROAT and CHEST. It has been used with probably greater success than any other article known, and Physicians who have had an opportunity of witnessing its highly salutary effects, recommend it as a safe and very efficacious medicine, equal if not superior to any other prescription for the above complaints within their knowledge. The basis of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States and was preserved by the individual to whom it gave the most astonishing relief. It is composed of vegetables and if used according to directions must be perfectly safe.

From Messrs Allen & Co Merchants, Cincinnati.—"The experience we have with the Vegetable Pulmonary Balsam enables us to speak of this as a valuable medicine and from the quantity sold notwithstanding the numerous other preparations used for similar complaints, we consider it first on the list

Respectfully &c ALLEN & CO

The Editor of the *Seneca Falls Courier* says—We have had occasion to witness the good effects of the Vegetable Pulmonary Balsam in our family in case of a young lady who has been entirely cured of Consumption by the use of it, and also in severe coughs and colds and cheerfully bear testimony to its being a safe convenient and very efficacious medicine in cases of that description."—Ed Courier

A Clergyman from Philadelphia writes, that he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family for the last thirteen years and also of recommending it to his friends, and considers it an invaluable remedy for all pulmonary complaints

For the last five years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate cough and other affections of the lungs. I would therefore confidently recommend its use in all complaints of the chest as being equal, if not superior to any other medicine within my knowledge.

In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its virtues proclaimed by the highest names of the faculty of London Paris and the chief cities of Europe as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the menu physique being brought forth and never before found the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION EXCITEMENT, incapacity to study or business, loss of MEMORY CONFUSION, thoughts of self Destruction fears of insanity &c. It will restore the appetite renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions &c were incurable. This however is not the fact

DR. MORSE'S INVIGORATING CORDIAL has and is constantly curing these cases [illegible] relieving the mental and bodily incapacity of the unfortunate sufferer as the following testimony of the owners received will conclusively show:

Dr Woodward of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus— It gives me pleasure to inform you that one of my patients who had [illegible] procured a one of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me says Dr W [illegible] he hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the meantime he purchased some of your Cordial which has effected a cure I am sure [illegible] other medicine would. I shall ever recommend whenever an opportunity occur

The nature of the malady relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question and the proprietor could produce a list of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained but is firmly based upon its positive and apparent miraculous virtues. In a direct way it has been the happy parents of healthy offspring who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

It has in many violent and desperate cases effected radical cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character.

I had no faith whatever, [illegible] its effect [illegible] but it has [illegible] I feel stronger [illegible] [illegible] [illegible] weeks. I am [illegible] [illegible].

Another says— I had consulted several distinguished physicians. Some said it did not be cured. [illegible] [illegible] thing and that but I found no relief until I procured a box of your Cordial. I must say it completely cured me

PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Cures of Consumptive Complaints, have proved to the undoubted satisfaction of all persons who have become acquainted with this *wonderful remedy*, that it is greatly superior, because it is *soothing* and *healing* and *more* certain to cure Consumption of the Lungs, than any other Remedy in the world. We know however, that it is said by some that Consumption can not be cured. Be that the opinion of the many or the few we shall not attempt to argue with such, but this we *will say*, and do *assert* as a fact which can be proved in thousands of cases, that this medicine has cured *Coughs* and *diseases* which *before* the cures were effected were called real Consumption, and which were attended with *symptoms* that resembled and were in all *respects like* the symptoms of those who died, and *when dead* were said to have died with that fatal disease Consumption. This Balsam has cured *thousands* of persons who were said to be hopelessly affected—who had *hard, dry racking* Coughs—Pains in the Breast, Side and Back—Difficulty of Breathing—*Purulent Expectoration—Hectic Fever—Night Sweats*—and wasting away of the Flesh and Blood. Persons having such complaints have been cured after it was said they *could not* live a week longer. This Medicine has cured some who were supposed to be in a dying state, but, by the use of this remedy they now live, and enjoy good health.

This Balsam is *purely a vegetable compound*. It is pleasant to take and *never does injury* in any stage of disease or under any circumstances. It effects its wonderful and almost miraculous Cures by Purifying, *Strengthening* and Invigorating the whole system—*by vitalizing the circulation*, and producing a *healthy action—thus allaying* Cough—*soothing the* Nerves—and *aiding and facilitating* Expectoration. It Cures the following diseases viz—

Consumption,

COUGHS and Colds, *Bronchitis Asthma Spitting of Blood, Bleeding at the Lungs, Pains in the Breast, Side, and Chest, Nervousness Night Sweats, Palpitation of the Heart,* and all FEMALE WEAKNESSES and *Complaints arising therefrom* Cholera Infantum, &c.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr R W Kirkus Chemist, 7, Prescot Street Liverpool dated 6th June, 1851

To Professor Holloway

SIR —Your Pills and Ointment have stood the highest on our sale list of proprietary Medicines for some years. A customer, to whom I can refer for any enquiries desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion however the virulence of the attack was so alarming and the inflammation set in so severely that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first and each succeeding dose she had great relief. She continued to take them and although she used only three Boxes she is now in the enjoyment of perfect health. I could have sent you many more cases but the above from the severity of the attack and the speedy cure I think speaks much in favor of your astonishing Pills

(Signed) R W KIRKUS

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier of the 1st March 1851 by Major J Walch

Margaret McConnigan, nineteen years of age, residing at New Town had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town and by them her case was considered hopeless—A friend prevailed upon her to try Holloway's celebrated Pills which she consented to do and in an incredible short space of time they effected a perfect cure

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE

From Messrs Thew & Son Proprietors of the Lynn Advertiser who can vouch for the following statement—August 2d 1851

To Professor Holloway

SIR —I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach which was also accompanied by a shortness of breath that prevented me from walking about. I am 84 years of age and notwithstanding my advanced state of life these Pills have so relieved me that I am desirous that others should be made acquainted with their virtues. I am now rendered by their means comparatively active, and can take exercise without inconvenience or pain which I could not do before. (Signed) HENRY COE North street Lynn Norfolk
